

IEntity

```
classDiagram
    class IEntity
    class IEntityFactory
    IEntityFactory --|> IEntity
```

The diagram illustrates a class hierarchy. At the top is the 'IEntity' interface, represented by a rectangle with a black border. Below it is the 'IEntityFactory' class, represented by a rectangle with a black border and a light gray fill. A dashed purple arrow points from the 'IEntityFactory' class up to the 'IEntity' interface, indicating inheritance. To the right of the arrow, the text 'regirock', 'regice', and 'registeel' are listed vertically, likely representing attributes or methods associated with the factory or the entities it creates.

IEntityFactory

regirock
regice
registeel
